---

☐ Teoría de Netbox (presentación de Powerpoint)

☐ Instalar contenedor

Guía: <https://github.com/netbox-community/netbox-docker/wiki/Getting-Started>

### Comandos a ejecutar:

- cd
- mkdir Netbox
- cd Netbox
- git clone -b release <https://github.com/netbox-community/netbox-docker.git>
- cd netbox-docker
- touch docker-compose.override.yml
- sudo nano docker-compose.override.yml

version: '3.4'

services:

nginx:

ports:

- 80:8080

- docker-compose pull
- docker-compose up

**Abrir el navegador y entrar a la siguiente dirección: 10.10.10.220:80**

☐ Configuración de Netbox

- Usuario: **admin**      Contraseña: **admin**      API Token:  
**0123456789abcdef0123456789abcdef01234567**
